

Fight For Cancer

Relay: 9

This year the Relay for Life team was sponsored by Alf's Geo and GeoSmart. The relay was held on June 14, 2008 in Camrose, Alberta. Team

GeoSmart raised \$3455.00 for Cancer this year and the Relay itself raised \$202,000.00! All in all, the entire relay was a success. As always the relay began with a survivor lap honoring those who are fighting cancer and have fought cancer. One of the team member's mothers walked in the survivor lap and all the team members were there to cheer her on. At dusk they all participated in the Luminary Ceremony. This is a beautiful ceremony where luminary candles are lit and lined along the track to remember those that we have lost, but carry around every day in our hearts and also honor those who are currently fighting cancer.

The relay team would like to thank Brian Vitek, Darren Winczura and everyone from GeoSmart for giving us the support to help us come together and participate in such a meaningful event. This year there were 440 participants and 149 survivors.
